MAGIC is a consortium of 21 university mathematics departments in the UK that share live video broadcast, and assessment, of PhD-level Mathematics courses. The courses cover a wide range of applied and pure mathematics, and MAGIC has been running continuously since 2007.

Students who are not members of the MAGIC consortium institutions are welcome to participate in the advanced mathematics courses offered by MAGIC.

As an external subscriber (for which there is a charge of £250 per student per term, payable soon after the start of that term), you will have access to the same services as other student members of the MAGIC consortium. In particular, you have access to live lectures, recorded lectures and the opportunity of assessment in up to 50 hours’ worth of courses per term.

Please refer to the MAGIC website for full details of courses, term dates and exam periods.

Please complete the MAGIC External Student enquiry form so that an account on http://maths-magic.ac.uk can be created, you can then sign up to the modules you wish to attend.

To subscribe please make payment via the Exeter online store by clicking on the following link - http://store.exeter.ac.uk/product-catalogue/college-of-engineering-mathematics-and-physical-sciences/subscriptions

MAGIC uses a Video Conferencing system called VisiMeet. Note that you will need to register as a user of VisiMeet and join the MAGIC VisiMeet community, and this is not covered by the subscription cost. Once you have paid your subscription the MAGIC Administrator will send you the link to join the MAGIC VisiMeet community.

We regret we cannot offer technical support for external subscribers beyond what we offer to consortium members and we reserve the right to revoke access to MAGIC lectures if anyone abuses the system.

**Terms and Conditions**

**Terms of access**

Access as an “External subscriber” will give you access to the same services as other student members of the MAGIC consortium, including access to live and recorded lectures, and the option to be assessed on up to 50 hours’ worth of courses per term, in addition to access to the MAGIC website. The subscription lasts from the date of receipt of payment until two weeks after the end of any assessment period for the subscribed term. Access to the live lectures will be available within at most one week from the date you pay the subscription.

It is the subscriber’s responsibility to ensure they have the correct IT equipment and software licenses to enable access to VisiMeet and the MAGIC website - we can only provide basic technical guidance on this.

We reserve the right to revoke access to MAGIC lectures and/or the MAGIC website if anyone abuses the system.
MAGIC External Student Subscription

abuses the system, for example by posting inappropriate or disruptive material, or disrupting lectures.

The lecture courses advertised at the beginning of term are for general guidance only – we may fully or partially cancel an individual courses in the case that the member of staff becomes unavailable and no replacement can be found, and lectures may change times or dates as the term progresses, though lecturers will give you due warning of this.

The material used by lecturer and any recordings of the lectures remains the copyright of the lecturer and/or their institution. Permission needs to be requested from the relevant lecturer before use and/or further distribution of any material given as part of a MAGIC course, other than for the purpose of private study.

Note that course assessment is provided only for guidance, as for full members of the MAGIC consortium. MAGIC does not issue awards, degrees or certificates of any type, and any marks returned to you and your institution are purely for informational purposes.

At the discretion of the MAGIC management, you can request access as an “External non-subscriber” without subscription – this only gives you access to the MAGIC website and, where available, recorded lectures which are posted there when available.

Cancellation policy

Up to the end of week six of a MAGIC term to which you have subscribed, or up to two weeks after payment of a subscription fee for that term (if that is later) you can cancel the subscription and we will refund the fee minus a £20 administrative fee. No refund will be given after this time.

Liability limits

External subscription is provided on an “as is” basis, with no implied guarantee of suitability of any course or liability for failure to deliver specific material advertised at the outset.

We are not liable for any hardware or software problems of the subscriber, or transmission problems associated with it. In the event that a majority of courses fail to complete and/or be assessed within a two week period after the end of the assessment period, we will provide a proportional refund of the subscription. We are not liable for further costs associated with failure of the MAGIC system for whatever reason.

Personal data

We will not use your personal data (name, email address, institution) for any other purpose than communication about MAGIC courses. Students may upload a photo, but that is optional and this will only be made visible to registered of the MAGIC website.

We log assessment submission attempts (successful or otherwise), so we can investigate any (alleged) technical issues. We will share the results of any assessment results with a student’s home institution on request from the institution.

Cancelled and recorded lectures

Revised July 2017
MAGIC External Student Subscription

We are not responsible for the cancellation of, problems with the academic content, or technical problems with any MAGIC lectures. We will endeavour to re-schedule cancelled lectures at a later time. We will endeavour to record lectures and post them a few days later for students to catch up at a later time. However, these recorded lectures come with no guarantee of availability or suitability - they are provided on the same basis as for consortium members of MAGIC.

Complaints

Please address any complaints in the first instance to the MAGIC Administrator at magic-admin@manchester.ac.uk.

These terms and conditions are available from the MAGIC website http://www.maths-magic.ac.uk
