Annual Report 2018

## 1 Introduction

The MAGIC (Mathematics Access Grid Instruction and Collaboration) project commenced, with partial sponsorship of EPSRC, in October 2006. It is aimed at sharing postgraduate lectures in mathematics for PhD students using Visimeet technology to share live lectures. To date the consortium has 21 universities as partners with both small and large departments being fully involved in the delivery of the programme of lectures in addition to their students being able to participate in a wide range of lectures.

MAGIC entered into a new five year agreement commencing 1 October 2016 until the end of September 2021. All 20 of the previous consortium members signed up to the new agreement along the University of Sussex, who joined the consortium as our 21<sup>st</sup> member in November 2016. We also have a small number of subscribing students from outside of the MAGIC consortium.

In December 2016 the EPSRC approved the final MAGIC expenditure statement relating to the previous 2011-2016 agreement. As agreed at the Academic Steering Committee in July 2016, remaining monies were reimbursed to Nodes. These monies have been used to upgrade the MAGIC equipment at each institution and towards the future cost for the upkeep and maintenance of this equipment. More than half of the MAGIC Nodes carried out an upgrade during 2016.

With the new agreement, the University of Exeter assumed financial responsibility for the project from October 2016 and Node financial contributions were requested in November 2016. Course development payments were made in December 2016, where the timings are as per the new agreement.

MAGIC delivered a programme of 37 courses in 2017/18 along with a successful launch lecture in early October and 2 virtual teaching sessions designed to familiarise lecturers with the MAGIC system and equipment. This programme for 2017-18 included the introduction of 2 new flipped approach type courses, MAGIC020 Dynamical Systems and MAGIC099 Numerical Methods in Python. Both courses included the usual MAGIC lecture contact hours but a significant amount of the material was based on self-study via podcasts or computer laboratory work. MAGIC099 in particular proved very popular and both courses are due to run again in 2018-19. There was some disturbance to courses owing to USU industrial action, but the indications we have are that this did not unduly affect the delivery of MAGIC courses.

The MAGIC website <http://www.maths-magic.ac.uk> will include this report, details of the current programme, the courses available and, for example, instructions for external students. Earlier annual reports on MAGIC can be found at [http://www.maths-magic.ac.uk/annual\\_reports](http://www.maths-magic.ac.uk/annual_reports). These reports give detail about how the project has developed over the years and contain information on the suite of courses which MAGIC has delivered and various technical and other issues that MAGIC has encountered.

## 1.1 Membership

**Table 1:** A list of MAGIC Consortium partners

University of Birmingham	University of Manchester
Cardiff University	Newcastle University
Durham University	Northumbria University
University of East Anglia	University of Nottingham
University of Exeter	University of Reading
Keele University	University of Sheffield
Lancaster University	University of Southampton
University of Leeds	University of Surrey
University of Leicester	University of Sussex
University of Liverpool	University of York
Loughborough University	

## 1.2 MAGIC Management Committee (2017-2018)

**Table 2:** MAGIC Management Committee

Peter Ashwin (University of Exeter)	Director of MAGIC
Tim Phillips (Cardiff University)	Programme Committee Chair
Vladimir Bavula (University of Sheffield)	
Yuri Bazlov (Manchester)	
Jitse Niesen (University of Leeds)	
Dirk Schuetz (Durham University)	
Kris van der Zee (University of Nottingham)	
Fraser Murray (Gillidanda)	MAGIC Technical Officer
Sam Blackburn (University of Exeter)	MAGIC Administrator

## 1.3 MAGIC Programme Committee (2017-2018)

**Table 3:** Programme Committee

Tim Phillips (Cardiff University)	Programme Committee Chair
Peter Ashwin (University of Exeter)	Director of MAGIC
Alexey Bolsinov (Loughborough University)	
Gianne Derks (University of Surrey)	
Derek Kitson (Lancaster University)	
Tobias Kuna (University of Reading)	
Sara Lombardo (Loughborough University)	
Sandor Nemeth (University of Birmingham)	

## 1.4 MAGIC Academic Steering Committee (2017-2018)

**Table 4:** A list of members of the Academic Steering Committee

Nigel Peake (University of Cambridge)	Chair of Academic Steering Committee
Peter Ashwin (University of Exeter)	Director of MAGIC
Tim Phillips (Cardiff University)	Programme Committee Chair
David Aspero (University of East Anglia)	
Yuri Bazlov (University of Manchester)	
Alexey Bolsinov (Loughborough University)	
Roger Colbeck (University of York)	
Jonathan Healey (Keele University)	
Derek Kitson (Lancaster University)	
Tobias Kuna (University of Reading)	
Michael Melgaard (University of Sussex)	
Antonio Moro (Northumbria University)	
Sandor Nemeth (University of Birmingham)	
Jitse Niesen (University of Leeds)	
Sergei Petrovskii (University of Leicester)	
Mary Rees (University of Liverpool)	
Ruben Sanchez-Garcia (University of Southampton)	
Dirk Schuetz (Durham University)	
Neil Strickland (University of Sheffield)	
Matthew Turner (University of Surrey)	
Kris van der Zee (University of Nottingham)	
Alina Vdovina (Newcastle University)	

## 1.5 Minutes

The minutes of the meetings of the MAGIC Management Committee, Programme Committee and Academic Steering Committee, together with the agenda papers can be found at: [https://maths-magic.ac.uk/admin/management/list\\_meetings.php](https://maths-magic.ac.uk/admin/management/list_meetings.php)

## 2 Progress and activities 2017-2018

### 2.1 MAGIC Administrator and Technical Support Posts

Administrative support continues to be provided by Sam Blackburn (Exeter). Peter Ashwin (Exeter) continues as Director of MAGIC. Toby Stafford (Manchester) stepped down as Deputy Director of MAGIC in September 2017 and this position remains vacant at the time of writing. Tim Phillips (Cardiff) continues as Chair of Programme Committee.

### 2.2 Video Conferencing Software/Hardware Update

Nodes remain responsible for organizing and financing maintenance of both hardware and software at their institution: there is no central provision of hardware maintenance. Fraser Murray (trading as Gillidanda) took over from James Perrin as MAGIC Technical Officer in August 2017. Fraser is initially contracted for one year.

### 2.3 Website

The MAGIC website has been continuously updated in response to requirements from users and administrators. e.g. tools for the Programme Committee to view how courses have performed over the years, and managing questionnaires. Security and mobile friendliness have been also improved. We are not aware of any major technical issues this academic year - Individual problems investigated have been investigated as and when they arose.

Fraser Murray completed a successful migration of the website and recordings to a new server at the end of 2017.

### 2.4 Recording of lectures

James Perrin developed a system of web-based streamed recordings of MAGIC lectures that became available from 2015-16; a significant amount of development work has gone into this and although the completed system is not yet fully automatic, feedback has been positive and so far, the usage by students high, especially around assessment times. We will however have to keep monitoring this to ensure it is as useful as possible.

### 2.5 Other activities and use of the MAGIC facilities

**Sponsorship and advertising:** MAGIC provided £3,500 of sponsorship funding towards the Birmingham Young Mathematicians Colloquium in April 2018 at the University of Birmingham and £500 towards a Probability and Statistics conference in July 2018 at the University of Sheffield. At the time of writing the report MAGIC is also expected to fund up to £2,100 towards a student conference at the University of Southampton.

**External Students:** Since autumn 2015 MAGIC has offered students from non-MAGIC Universities the opportunity to participate in MAGIC lectures as “external subscribers”. These subscribers are able to attend and be assessed for courses on payment of a subscription charge of £250 per term. The subscription gives a

student access to the same services as other student members of the MAGIC consortium and allows access to live lectures and recorded lectures via the MAGIC website.

In 2017-18 there were 4 registrations from external students at £250 per semester which generated an additional £1,000 of income.

## **3 Academic Aspects 2017-2018**

### **3.1 Academic Programme 2017-2018**

The list of courses given in the 2017-18 sessions (and also for previous sessions) can be viewed at the MAGIC website at <http://maths-magic.ac.uk/courses.php>. The website also gives details of the individual courses and syllabi. Details of course history and payments for course development have been added to the MAGIC website and can be viewed at [https://maths-magic.ac.uk/admin/programme/course\\_histories.php](https://maths-magic.ac.uk/admin/programme/course_histories.php)

### **3.2 Questionnaires and feedback**

The results of the questionnaire data can be viewed at (login required): [https://maths-magic.ac.uk/admin/programme/view\\_questionnaires.php](https://maths-magic.ac.uk/admin/programme/view_questionnaires.php)

An alumni questionnaire was issued in early May 2018 to students who registered for MAGIC courses in 2015-16. The aim of the questionnaire was to get responses from students who had completed their MAGIC training but who were mostly in the final stages of their PhD. The questionnaire provided a return rate of 12% which was slightly lower than previous years. Feedback from the lecturers on all the courses has been obtained via online course reports and the responses are available for viewing via the MAGIC website along with other questionnaire results. The feedback from students and staff (via the questionnaire results, forums discussions) is used by the Programme Committee when it reviews the programme each year. The minutes of the Programme Committee contain some of the feedback and summarize the outcomes from the review.

### **3.3 Assessment Policies**

The MAGIC assessment policy was revised in August 2016 to reflect the need to address the variation and volume of assessments which were raised as issues by the Programme Committee. The policy also emphasises the importance that final assessments can be completed in reasonable time. It was updated further in April 2017 to clarify the wording concerning timing of the exam period and assessment.

The policy can be found on the MAGIC website here:

[https://maths-magic.ac.uk/admin/documentation/documentation\\_index.php](https://maths-magic.ac.uk/admin/documentation/documentation_index.php)

The policy requires that each MAGIC course will have a single open-book style examination/assessment at the end of the module, and this will be done over a two week period after the end of the course. Lecturers are required to produce a pass/fail mark for each student requiring assessment, and to give feedback on the assessment via the MAGIC website. A payment of £10 is made to lecturers for each pass/fail assessment of student recorded on the MAGIC website.

## 3.4 Course preparation and refreshment payments

The arrangements for this year remain the same, after previous system payment for payment in advance for multiple years has expired, the institution responsible for delivering a course is paid according to the following table:

Course type	One-off payment	1 <sup>st</sup> year	1 <sup>st</sup> year total	2 <sup>nd</sup> year	3 <sup>rd</sup> year	Total over 3 years
New 20 hour	£1200	£400	£1600	£400	£400	£2400
New 10 hour	£600	£200	£800	£200	£200	£1200
New lecturer 20 hour	£600	£400	£1000	£400	£400	£1800
New lecturer 10 hour	£300	£200	£500	£200	£200	£900

## 3.5 Registration data<sup>1</sup>

The *Table 5* below shows the number of students registered for courses together with the number requiring formal assessment. The corresponding figures for previous years are also displayed in the same table. *Table 6* shows the same data but broken down via MAGIC partner.

**Table 5:** Total number of course registrations and numbers of students requiring formal assessment. The number of students in the third row is the number of people who registered for at least one course in that session and excludes those names added to the database but not signing up for courses.

	2012-13	2013-14	2014-15	2015-16	2016-2017	2017-2018
Registrations (assessed)	646 (434=67%)	719 (470=65%)	830 (551=66%)	806 (511=63%)	672 (373=55%)	845 (495=58%)
No. of Students	256	285	300	297	281	327

<sup>1</sup> All data for 2017-18 is correct as per the MAGIC website 17.05.18

**Table 6:** Same data as in Table 5 but broken down by institution. Student numbers is a count of the numbers of students on the database in the particular session who registered for at least one course.

	2013-14		2014-15		2015-16		2016-17		2017-2018	
	No. of Students	Registered courses	No. of Students	Registered courses	No. of Students	Registered courses	No. of Students	Registered courses	No. of Students	Registered courses
External	1	1	3	38	6	51	6	19	4	13

York	14	34	11	38	12	48	7	20	17	50
Total	285	719	300	830	297	806	281	672	327	845

<sup>2</sup> 3 semester registrations (1 in autumn, 2 in spring) from 2 external assessed students 2015-16

<sup>3</sup> 7 semester registrations (2 in autumn, 5 in spring) from 5 external assessed students 2016-17

<sup>4</sup> 4 semester registrations (1 in autumn, 3 in spring) from 2 external assessed students 2017-18

In *Tables 7, 8* we show assessment data for each course broken down by course. In *Tables 9, 10* we show registration data for each node and broken down by course. *Table 11* shows a summary of the data for the last few years.

**Table 7:** Autumn 2017-2018 courses with numbers of registered students and number of students registered for assessment.

	Course	Registered	Assessed
MAGIC002	Differential topology and Morse theory (Dirk Schuetz, Durham)	17	12
MAGIC004	Applications of model theory to algebra and geometry (Vincenzo Mantova, Leeds)	18	12
MAGIC008	Lie groups and Lie algebras (Alexey Bolsinov, Loughborough)	48	32
MAGIC020	Dynamical Systems (Peter Ashwin, Exeter)	22	11
MAGIC022	Mathematical Methods (Jitesh Gajjar, Manchester)	37	28
MAGIC049	Modular Forms (Jens Funke, Durham)	24	14
MAGIC057	Spectral Theory of Ordinary Differential Operators (Karl Michael Schmidt, Cardiff)	20	13
MAGIC061	Functional Analysis (Martin Lindsay), Lancaster)	21	12
MAGIC076	The Heisenberg group in mathematics and physics (Vladimir V. Kisil, Leeds)	15	12
MAGIC081	String Theory (Thomas Mohaupt, Liverpool)	17	7
MAGIC085	Metric Number Theory (Sanju Velani, York)	14	9
MAGIC090	Introduction to Continuum Mechanics (Mitchell Berger, Exeter)	24	14
MAGIC093	Introduction to Markov processes, with coupling and convergence rates and applications (Alexander Veretennikov, Leeds)	21	8
MAGIC095	Calculus of Variations (Matthias Kurzke, Nottingham)	25	20
MAGIC096	Spectra and geometry of graphs and networks ((Norbert Peyerimhoff, Durham)	35	15
MAGIC097	Theory of conservation laws and critical phenomena (Antonio Moro, Northumbria)	9	4
MAGIC098	Adaptive Finite Element Methods (Omar Lakkis, Sussex)	16	8
MAGIC099	Numerical methods in Python (Ian Hawke, Southampton)	52	23
<b>Total</b>		<b>435</b>	<b>254</b>

**Table 8:** Spring 2017-2018 courses showing numbers registered and numbers of students registered for assessment.

	Course	Registered	Assessed
MAGIC009	Category Theory (Michael Rathjen, Leeds)	46	32
MAGIC010	Ergodic Theory (Charles Walkden, Manchester)	15	7
MAGIC014	Hydrodynamic Stability Theory (Jonathan Healey, Keele)	11	5
MAGIC021	Nonlinear Waves (Roger Grimshaw, Loughborough)	21	13
MAGIC043	Banach spaces and Fredholm theory (Niels Laustsen, Lancaster)	13	7
MAGIC050	Set Theory (David Aspero, UEA)	22	14
MAGIC053	Sheaf Cohomology (Bernhard Koeck, Southampton)	36	20
MAGIC058	Theory of Partial Differential Equations (Alice Thompson, Manchester)	47	33
MAGIC063	Differentiable Manifolds (Kirill Mackenzie, Sheffield)	18	10
MAGIC064	Algebraic Topology (Frank Neumann, Leicester)	24	14
MAGIC075	Representation Theory of Groups (Martina Balagovic, Newcastle)	36	18
MAGIC079	Inverse Problems (Daniel Lesnic/Sean Holman, Leeds/Manchester)	23	14
MAGIC080	Geometric Mechanics (Cesare Tronci Surrey)	6	3
MAGIC082	Banach spaces of analytic functions (Jonathan Partington, Leeds)	15	10
MAGIC083	Inetgrable Systems (Alexander Mikhailov, Leeds)	9	4
MAGIC087	Applied Algebraic Topology (Jacek Brodzki, Southampton)	15	10
MAGIC089	Stochastic Processes (Tobias Kuna, Reading)	25	8
MAGIC091	Mathematical Biology (Markus Owen, Nottingham)	18	12
MAGIC092	Introduction to superfluids and turbulence (Davide Proment, UEA)	10	5
<b>Total</b>		<b>410</b>	<b>239</b>
